

Notebook Cooler Power On NTC-400 K/B/R/W

Overview:

Aluminium alloy metal material design iron mesh + plastic material durable, heat dissipation excellent with a strong cooling system
 Fashion classic shape large surface using a metal punch empty net surface, easily place objects suitable for 16 inch notebook to use
 Power switch design side with the power switch, to freely control the switching of the radiator according to the temperature conditions and to maintain the power saving mode

Features:

Unit size: 360 x 258 x 20 mm
 Fan dimension: 80 x 80 x 10 mm
 Fan airflow: 23-44 CFM
 Noise level: 11dBA (Min)
 Rated current: 0.4A (Max)
 Rated voltage: 5V DC
 Power: USB

Information:

Manufacturer site: www.pc-professional.info
 Warranty: 2 years
