

## Notebook Cooler Power On NTC-400 K/B/R/W

## Overview:

Aluminium alloy metal material design iron mesh + plastic material durable, heat dissipation excellent with a strong cooling system

Fashion classic shape large surface using a metal punch empty net surface, easily place objects suitable for 16 inch notebook to use

Power switch design side with the power switch, to freely control the switching of the radiator according to the temperature conditions and to maintain the power saving mode

## Features:

Unit size:  $360 \times 258 \times 20 \text{ mm}$ Fan dimension:  $80 \times 80 \times 10 \text{ mm}$ 

Fan airflow: 23-44 CFM Noise level: 11dBA (Min) Rated current: 0.4A (Max) Rated voltage: 5V DC

Power: USB

## Information:

Manufacturer site: www.pc-professional.info

Warranty: 2 years
